Summary

Mousesack has taught generations of Cintran nobility many things, including how to fuck.

Notes

this was specifically conceived with the netflix characters in mind

It was big, was the thing - the point of it, she'd been told.

Hadn't *quite* understood.

"- the enchantment will change its size," Mousesack was explaining to a wide eyed Pavetta, who nodded eagerly.

Triss's legs trembled as said magical phallus grew thicker inside her, right as she *finally* managed to relax around it. She was unable to evade it, hips firmly bound to the seat with the magic implement.

"... just over the threshold of *too much* and under for *pain*."

Ask for specifics , Triss scolded herself as spasms of pleasure tore through her, *next time Mousesack asks for assistance teaching*.
